Join the Future of Health and Care

Bioscience 4

CBRE

Discoveries Meet Momentum. Right Here.

At Fitzsimons Innovation Community, visionaries boldly transform science into the future of health and care. It is the first purpose-built life sciences campus in Metro Denver with 400,000 SF of existing lab, office, and manufacturing space dedicated to breakthrough research and advanced discoveries. With 50 sprawling acres of developable land, the Community is primed for growth.

Here, scientists interface with fellow entrepreneurs, and have direct access to renowned clinicians and researchers at the University of Colorado Anschutz Medical Campus, just steps away. The Community is based on the boundary-pushing that can only happen when the best and brightest are in the same space.

From the Office to the Great Outdoors

Wellness-centered design means sweeping front range views, a network of thoughtfully designed green spaces, and a master plan that champions biking, walking, and public transit.

Connected to Life

EVERYTHING YOU NEED, ALL JUST STEPS AWAY

We're a true community, a dynamic pedestrian-first innovation district with nearly 900 residential units, primary and middle schools, curated local food & beverage options, and a boutique hotel home to CU's faculty club.

Leading-Edge Facilities with Room to Scale

Bioscience 4 is the latest, and far from last, addition to Fitzsimons Innovation Community. The site can accommodate up to 800,000 SF in future phases, arranged around a central courtyard.

With over 50 additional acres slated for future life sciences development, Fitzsimons Innovation Community is well-poised to support the expansion and advancement of its groundbreaking companies. Fitzsimons offers a rare combination of an established campus, rich with neighborhood amenities, and ample room for growth.

Who We Are

Aimco is a diversified real estate company focused on value add, opportunistic, and alternative investments, with a 28+ year history of growth and innovation. Aimco's mission is to make real estate investments where outcomes are enhanced through our human capital so that substantial value is created for investors, teammates, and the communities in which we operate. We are the most active developer on the CU Anschutz Medical Campus with completed projects that include multiple residential buildings, retail, a boutique hotel, and public greenspace. Aimco is headquartered in Denver, CO and traded on the New York Stock Exchange as AIV.

AIMCO PRESENT AND FUTURE PROJECTS

Our Partners

CRB is a leading provider of sustainable engineering, architecture, construction, and consulting solutions to the global life sciences and advanced technology industries. CRB is a privately held company with a rich 35-year history of serving clients throughout the world, consistently striving for the highest standard of technical knowledge, creativity, and execution.

Routinely managing technical, complex, and high-stakes projects across North America, PMA is a real estate consulting firm with an expertise for developing projects that lay the foundation for critical innovation and commercial success. PMA has become widely reputed for their attention to detail and their ability to execute upon highly complex and broad scope developments, enabling them to play a key role in the development of Bioscience 4.

TRYBA ARCHITECTS

Founded in 1988, Tryba Architects specializes in the full integration of architecture, urban design and planning, interior design, branding, and experiential design. With offices in Denver, Colorado and Fort Worth, Texas, Tryba has built a legacy of innovative projects nationwide that connect people, nature, and the urban environment. For nearly a decade, Tryba has been integral to realizing the future of Fitzsimons Innovation Community with the design of numerous campus landmarks including The Benson Hotel & Faculty Club, The Fremont Residences, Central Green, Compositive Primary, and the forthcoming Bioscience 4.
